

Spiritual Warfare – SF 210

Christians have an unseen enemy who wants to influence and even control the way we think. In this class, we pull back the curtain to reveal the invisible, but very real spiritual world. You will learn how to win the battle for your mind so you can live victoriously in Christ.

If you were a soldier in basic training, about to be deployed to fight a war, you would want to learn as much as possible to prepare for battle, win the war, and maintain your defenses against future attack. Shouldn't we as Christians want the same for the spiritual battles we face?
