

Biblical Geography – BT 110

A Survey of Biblical Places and Events

This class is designed to walk the participant through the background of biblical events as we study many of the locations of Israel. The more one understands the land of the Bible, the more one will understand the Bible itself. As we study these locations and the events that took place, we will gain a broader understanding of the redemptive narrative. The land that God chose to place His people was not arbitrary. As a matter of fact, it is often through the land itself that He developed the spiritual lives of His people.

Through this class we hope you will gain a clearer comprehension of the text as you learn to “picture” the events as they unfolded. Knowing what a location looks like enables you to picture the action, to remember the event, and to imagine the circumstances that were present in the Old and New Testament times.

This class is excellent preparation for those who will be traveling on an Israel tour, for those who have already visited the land of the Bible and even for those who may not have that opportunity. It will enrich your understanding of scripture

*This course will only run 6 sessions; it will conclude on February 26.

Facilitators: Pastor Don Denyes & Becky Phillips
Room 202 | Cost: \$10
