

Biblical Manhood – SF 240

What is a real man? A study conducted by the Christian Business Men's Connection discovered when the father is an active believer, there is a 75% chance the children will also become active believers. But if only the mother is a believer, the likelihood drops to 15%. Real men are real believers, but what does the Bible say makes a real man? The answer to this question is imperative for impacting the next generation for Christ. This class will thoroughly review the Scripture to develop a definition of a man that can help men know who they are to be and to help them raise sons to be men and to help raise daughters who marry real men.

TOPICS COVERED:

- A Man and his God
- A Man and his family
- A Man and his church

The goal of this class is for men to have a working definition of biblical manhood from which they can measure their own progress and use to point sons toward for their pursuit of biblical manhood. This definition will also be of great assistance to men with daughters for helping them choose real biblical men for marriage.
